

Indoor Beachvolleyball Training 2019/2020

On our indoor beach you can play beach volleyball all year round. We have 6 indoor beach courts with heated sand and two outdoor courts in the summer months. There are different levels of training on Monday through Thursday evening and Saturday morning. The training sessions last 1.5 hours and are provided by our Beach Club Aalsmeer trainers. There are trainings at different levels. So whether you are just starting out as a pro, there is always a suitable training for you.

Are you unsure about your level? Prefer to start 1 level lower so that you can continue to grow. It is ultimately up to the trainer to determine at what level a player can play. With your registration you indicate at which level you want to play. If we find out during training that the level is too high or perhaps too low, we will consult with you to ensure that you get the most out of the training and that you are in the right group.
